BRAINERD, MINNESOTA, FRIDAY, MARCH 3, 1922

Price Three Cents

## CAN WORKING GIRLS DRESS ON \$87.55 PER YEAR

### DEPARTMENT STORE GIRL SO TESTIFIES IN INDUSTRIAL COURT

#### TWO HUNDRED GIRLS INDIGNANT AT HER TESTIMONY STORM THE STORE

#### TESTIMONY WAS GIVEN AT MINIMUM WAGE HEARING BEFORE INDUSTRIAL COURT

(By United Press.) Topeka, Kan., March 3—Working girls of Kansas cannot dress on \$87.55 a year and get along without hair pins and cosmetics and garters.

This was the element of the testimony thrown into the minimum wage fight for the poor working girls before the Kansas industrial court here today following the dramatic storming of two department stores here late yesterday by about 200 girls who were angered by the testimony of Miss Nell Berger, a witness for the employers, who testified before the court that working girls could dress on that amount.

In the Crosby Brothers department store, where Miss Berger is employed, the girls who formed when they got off from work yesterday at five o'clock, demanded to see her.

She wasn't in.

Leaders of the girl demonstrators claimed she went out the back door as they came in.

The militant feminine workers then called the manager of the store, demanding to see the stockings which at 25 cents a pair Miss Berger told the court working girls could use at the rate of six pairs a year—that would be sufficient.

The petite noses went up when they were produced. Someone snatched them from the manager's hands and the stockings went down to the floor beneath two hundred pairs of smart high heels.

### WOMAN 72 LEAVES PROPERTY TO HER MOTHER, AGED 100

(By United Press.) Red Wing, March 3—A woman 72 years old, who died recently, left her property to her mother who is now past 100 years of age.

Martha Broin, the mother, filed in probate court for administration, papers for the estate of Brita J. Broin, 72, her daughter.

Court records show that seldom does a person over 70 leave property to elders.

### Women Lawyers Urge That a Woman Succeed Judge Landis on Bench

(By United Press.) Chicago, March 3—The Woman's Bar association of Illinois, is urging the appointment of Miss Florence King, Chicago attorney, as judge of the United States district court here to succeed Judge K. M. Landis.

Copies of the resolution urging the appointment adopted by the organization have been sent to President Harding and Attorney General Daugherty.

### Sanborn Selected to Succeed Judge Brill

(By United Press.) St. Paul, March 3—John B. Sanborn, local attorney, has been selected by Governor Preus to fill the vacancy in the Ramsey county district bench caused by the death of Judge Hascal R. Brill Wednesday.

Sanborn has served in various other public offices, including state legislator.

### 22,000 CUT IN ARMY PERSONNEL PLANNED

Washington, March 3—Reduction of the size of the regular army to 115,000 enlisted men has been tentatively agreed upon by the subcommittees which is drafting the army appropriation bill, it became known yesterday. The present strength of the army is approximately 137,000 men.

### HAYS LEAVES THE CABINET; ILL. CONGRESSMAN THANKFUL

(By United Press.) Washington, March 3—Will Hays' retirement from the cabinet today "brings thanksgiving and rejoicing to the republican party," Representative Thomas S. Williams, republican, of Illinois, declared in a speech in the house today bitterly attacking Hays' record as postmaster general.

Callings Hays the "Prince of Mugwumps" and the "one disappointment in the first year of the republican administration," Williams declared that "the most popular act of Hays' career is his retirement to enter the movies."

### DEMOCRATS WOULD MAKE HARD TIMES A POLITICAL ISSUE

#### IN COMING CONGRESSIONAL CAMPAIGN—REPUBLICANS POINT TO ACHIEVEMENTS

(By United Press.) Washington, March 3—Democrats are seeking to make "hard times" the prevailing financial, industrial and agricultural conditions, the big issue of the congressional campaign which is getting under way as the first year of Harding's administration closes today.

Republicans are putting forward the administration's achievements as the main issue, notably the Washington arms conference with its prospective heavy saving in the naval expenditures.

Other important issues which are rapidly developing and which probably will confront the voters at the polls are:

The soldier bonus.

The action of the senate in seating Senator Newberry.

The proposed ship subsidy.

Amendment of the Volstead law to permit manufacture and sale of light wines and beer.

Former Governor James M. Cox, the democratic presidential candidate in 1920, who plans to take an active part in the congressional campaign in Ohio and Massachusetts where he will seek to bring about the defeat of Senator Lodge, indicated here today he believes present business conditions will be the chief campaign issue.

He blames the international policies of the republicans during the Versailles treaty fight for the present situation.

Specifically, the democrats allege the republicans have failed to reduce taxes appreciably and have not brought about governmental economy and have wrecked the farmer and left him to face ruin; have so disorganized and demoralized positions that millions are unemployed.

The republicans answer is simply that the democrats left the G.O.P. a highly inflated business, heavily swollen government expenditures, a false prosperity, a country at war with other countries, and that the republicans have restored peace and made great strides towards restoration of normal business conditions; have relieved business and the general public of war taxation; have enacted more farmers' legislation than was ever passed before, and have worked out a great international peace plan which will reduce governmental expenditures and taxes.

### World's Largest Hotel Will Cost 12 Million

Chicago, March 3—Plans for the world's largest hotel to contain 3,000 guest rooms and to be built on Michigan boulevard at a cost of \$12,000,000, were announced here yesterday. The announcement followed the sale of a block of land south of the Blackstone hotel for \$2,500,000 on which the new hotel, to be known as the Stevens, will be built. Construction, it was said, will start soon after May 1. The announcement was made by James W. Stevens, president of the Lasalle Hotel company.

According to Mr. Stevens, the hotel will contain a convention hall with a seating capacity of 4,000, an exposition floor with 35,000 square feet, a banquet hall seating 1,045, and a dining room seating 1,000. It will be 25 stories in height.

### THREE WOMEN BURNED TO DEATH IN WAUPUN, WIS.

#### BAD FIRE DESTROYS SHALER VULCANIZING PLANT—LOSS ESTIMATED AT \$500,000

#### EXPLOSION STARTS FIRE—WOMEN TRAPPED ON SECOND FLOOR LOSE LIVES

(By United Press.) Waupun, Wis., March 3—The bodies of Mrs. Emma Michael, Mrs. Howard Carney and Miss Bessie Cuckoo, victims of the fire which destroyed the Shaler Vulcanizing company plant here last night, with a loss estimated at between \$500,000 and \$600,000, were recovered early today.

Although the bodies were burned almost to a crisp, they were recognized by their teeth, according to the coroner. The bodies were all found about center of the ruins of the factory.

After fighting all night, firemen from this city, Fond du Lac, Beaverdam and Oshkosh, had almost completely extinguished the flames which not only destroyed the vulcanizing plant, but other nearby plants and several residences were also badly burned.

The fire broke out following an explosion of an undetermined origin in the punch press room of the factory just before closing time.

In less than five minutes after the explosion, the entire building was a mass of flames through which the employees rushed to safety with the exception of the three young women who were trapped on the second floor. Although firemen and the employees made every effort to rescue the three women they were unable to enter the burning building.

### BUCKET SHOP BROKERS FLEE FROM ARREST

#### DISTRICT ATTORNEY'S CAMPAIGN AGAINST BUCKEATERS SHOW THEY HAVE FLOWN

(By United Press.) New York, March 3—Bucket shop brokers are fleeing Wall street by the scores before the storm of the district attorney's investigations, it developed today.

Detectives searching the financial district for men wanted on grand jury indictments have found only empty offices in most instances. Of nearly fifty indictments to date, only six arrests have been made.

Defaulting brokers, brokers indicted for grand larceny, brokers whose bucket shop operations have been protested, and brokers who have reason to believe they may be protested, all have left their gold stock certificates and stolen away in the night. Nearly one hundred detectives have been sent to Wall street to bring back brokers wanted for trial in connection with the sweeping investigations. They have found empty offices. The brokers have gone for the most part to Europe. Bail has been fixed at \$50,000 in the majority of cases where the buckeaters have been apprehended. A little trip abroad is cheaper than such bail.

### HARVEY CHURCH UNABLE TO SAY GOOD BYE TO PARENTS

(By United Press.) Chicago, March 3—Harvey Church who hangs at four p. m. today was unable to say farewell to his father and mother who visited him in his cell at noon.

The convicted murderer of two auto salesmen who has been on a hunger strike for forty-three days recognized the aged parents as they stood over the cell.

He raised up to a sitting posture, his lips seeming to form the word "goodbye" but no sound came from them. He then fell back, relapsing into a comatose state.

Physicians who examined him again believed he realized his doom was sealed.

### PRESIDENT WILL TAKE TWO WEEKS VACATION IN FLORIDA

(By United Press.) Miami, Florida, March 3—President Harding is planning to spend a two weeks' vacation in this section in the near future, it was learned here today.

Arrangements are being made at the Flamingo hotel, at Miami Beach, for the president, who is to occupy the presidential cottage to which he was assigned on his visit here last year.

Announcement of the chief executive's vacation plan is expected from the White House late Saturday, it was said.

The president expects to go fishing off Cocobolo Bay, one of the Keys off the Florida coast.

### OKLAHOMA CHIEF EXECUTIVE FIGHTS AN OIL OPERATOR

#### GOVERNOR WAS ATTACKED WHEN INTRODUCED—BUT GAVE AGGRESSOR BLOWS IN RETURN

(By United Press.) Okmulgee, Okla., March 3—A fist fight between Governor J. B. A. Robertson of Oklahoma, and James G. Lyons, Okmulgee oil operator, today climaxed the stormy grand jury probe of the Okmulgee State bank failure scandal.

Robertson, who had previously declared he understood "an attempt is being made to indict me," had personally demanded of County Attorney Hepburn that he be allowed to testify.

A conference between Hepburn and the grand jury and then one between Hepburn and Robertson were held. It was immediately after his conference that Robertson and Lyons came to blows. Spectators separated the two after a dozen blows were exchanged.

The encounter occurred when friends of the governor sought to introduce him to Lyons. The governor extended his hand. Lyons shot his fist forward, striking the governor in the face, according to witnesses.

"I'm a man," the governor was heard to remark as he retaliated, sending a blow to Lyons' head.

Then members of the crowd seized them and separated them. Neither party showed any marks of the battle.

Arrests Contingent

County Attorney Hepburn placed the governor and Lyons under arrest following the fight.

He asked the governor if he wished to prosecute Lyons. The governor replied he did not. He then asked Lyons the same question and Lyons answered that he did not. Hepburn then ordered the charges against both of them dismissed.

### ILLINOIS MINERS THREATEN SEPARATE ACTION ON WAGES

#### UNION OFFICIALS OF THAT STATE CALLED TO CONFER WITH STATE OPERATORS

(By United Press.) Springfield, Ill., March 3—Illinois Union mine leaders threatened today to part from the solid ranks of the United Mine Workers and make a separate peace with operators.

Frank H. Farrington, president of the Illinois Miners, predicted that if union officials gathered here or decide that his organization would throw the April strike plan overboard and accept the invitation of the Illinois operators for a parley.

In case the Farrington program is favored by other union officials of district No. 12, it will mean that miners of Ohio, Pennsylvania and Indiana will have to fight their own battles.

President John L. Lewis of the United Mine Workers has repeatedly refused to allow separate units of the central competitive district to negotiate separately.

### LLOYD GEORGE WINS HIS USUAL VICTORY OVER HIS ENEMIES

#### EFFORTS OF ULTRA CONSERVATIVES TO OVERTHROW COALITION GOVERNMENT FAILS

#### NOTED PREMIER WILL REMAIN TO CONCLUDE NEGOTIATIONS AT GENOA CONFERENCE

(By United Press.) London, March 3—Lloyd George has weathered another political crisis.

"Die hards" in the unionist ranks, who would have forced the resignation of the premier or a general election, were checked by leaders of the conservative party at stormy meetings which lasted until early today.

Arthur Balfour is understood to have used his influence heightened by his achievements at Washington to aid Lloyd George.

A group of conservatives under Sir George Younger sought to bring about a return to party politics by attacking Lloyd George at the present moment when due to conditions in Ireland the postponement of the Genoa conference and other difficulties, he is not over strong.

The prime minister threatened to resign under attack unless the conservative party gave him a quasi vote of confidence. An announcement at Oxford University tonight by Austin Chamberlain, leader of the unionists, was expected to declare the party's confidence in the premier.

Balfour speaks in London next Tuesday and will reiterate Chamberlain's expressions.

### LEGISLATION TO STABILIZE FARM PRICES

#### FARMER'S WIFE APPEARS BEFORE SENATE AGRICULTURAL COMMITTEE URGING RELIEF

(By United Press.) Washington, March 3—The plight of the farmer's wife and his children under the stress of hard times in agriculture, was pictured today before the senate agricultural committee by a farmer's wife.

Mrs. N. P. Radick, of Fulda, Minn., vice-president of the United Society of Agriculture, told the committee:

"That unless congress does something to stabilize farm prices, farmers wives will be heard from in the next election."

"That farmers' families are being broken up because the young men and young women will not stay at home to face existing economic conditions."

"That farm women are no longer the patient plodders they once were, content with whatever came, but are demanding a fair return for the work they put into making the farm a success."

Mrs. Radick urged enactment of legislation like that proposed by Senator Ladd, of North Dakota, to stabilize grain prices.

### JAPAN WOULD RECOGNIZE SOVIET GOVERNMENT

(By CLARENCE DUBOSE (United Press Staff Correspondent.)

Tokio, March 3—Japan is disposed to recognize the soviet government of Russia under certain condition, the United Press learned today from authoritative sources.

Instructions to the Japanese delegates at the proposed Genoa conference are now being prepared but have not been completed, it was disclosed.

The informant declared Japan probably will present two leading requirements, namely:

That the soviet assume the debts of the old government.

That the soviet regime guarantee the safety of foreign property and lives in Russia.

If these requirements are accepted, it was stated, and are fulfilled, Japan will be disposed to recognize the soviet government.

### TWIN CITY BOOZE RAIDS RESULT IN EIGHT ARRESTS

(By United Press.) Minneapolis, March 3—Prohibition raids in the Twin Cities today resulted in eight arrests and the seizure of one thousand gallons of liquor. Two men were arrested in St. Paul, and six in Minneapolis.

F. B. Qvale, northwest prohibition enforcement director, launched the campaign against bogus federal agents operating in the Twin Cities.

"More than one hundred of these imposters are operating in the Twin Cities now," Qvale said.

### BETTER TRADE TONE IS BASIS FOR OPTIMISTS

#### MORE HOPEFUL PROSPECT FOR TRADE VIEWED BY FEDERAL RESERVE BOARD

Washington, March 3—Improved conditions during February have furnished a "more hopeful prospect" for trade in the coming months, according to the monthly business and financial review issued last night by the federal reserve board.

Changes occurring in the various industries during the month, the board declared, have resulted in diminishing the irregularity and unevenness noted during the last year. Price stability was evidenced by current readjustments, the noteworthy advances in the prices of agricultural products during the month being offset by corresponding declines in other lines of industry.

The readjustment process, the board asserted, has apparently reached the stage of inter-industrial price revision tending to facilitate liquidation of loans at banks and the rapidity of movement of products to markets.

More satisfactory marketing and price conditions have included tobacco and other products as well as grain, the board stated, although early reports from the southwestern grain regions have not been altogether reassuring.

The better outlook, the board declared, has to some extent been offset by labor and other difficulties in the textile industry resulting in reduced activity, although fairly good conditions in the New England shoe and leather industry were reported. Some increased activity of steel mills was noted, but business in the chemical industry was declared to have been given a severe setback as a result of uncertainty as to the future. Distinct increase in nonferrous metal production, especially copper, and the reopening of mines long shut down was reported.

Little modification in the volume of unemployment was seen.

### NATIVE SOLDIERS QUELL OUTBREAK; ORDER RESTORED

London, March 3—Three persons were killed and 24 others injured, some seriously, in rioting at Tanta, Egypt, 55 miles north of Cairo, says a Central News Dispatch from Cairo. Native soldiers quelled the disturbance and restored order.

### STEAMER SINKING; BOATS SMASHED; SHIP TO RESCUE

Boston, March 3—The Norwegian freight steamer Grontoft was reported sinking about 500 miles southeast of Cape Race, in radio messages received here. Its lifeboats had been smashed, the steamer West Kabar reported. The steamer Estenia was proceeding to its assistance. The Grontoft was bound from New Orleans to Esbjerg.

### IOWA STATE PRISON DESTROYED BY FIRE

(By United Press.) Keokuk, Iowa, March 3—The Iowa state prison at Madison was being destroyed by fire early today, according to reports received here. Fire equipment has been rushed.

### NON-CASH BONUS TO PASS CONGRESS WITH NO TROUBLE

#### BILL IS BEING DRAFTED AND WILL BE READY FOR PRESENTATION IN 2 WEEKS

#### SAID TO BE AGREEABLE TO PRESIDENT—SPREADS PAYMENTS OVER 20 YEARS

(By United Press.) Washington, March 3—Party leaders in the house predicted today that the non-cash gratuity plan will go thru congress with comparatively little trouble.

The subcommittee engaged in drafting legislation to eliminate all cash bonuses except from men whose compensation is \$50.00 or less, estimated that within two weeks the bill will be ready.

Members declared that they could see no reason for undue delay thereafter, though it has been shown that there is many a slip between prediction and enactment.

Since the insurance certificate proposals involves no wrenching of the treasury within the next three years, there will be no particular objection to the bill among the legislature of representatives and senators. President Harding is agreeable to the proposal.

The plan will involve taxation of some kind or another, but the taxation will be spread in small doses over a period of twenty years. Thus far it is impossible to estimate the total cost of the new measure, although it is assured it will be under five billion dollars in the complete period.

### French Sell U. S. Supplies

(By United Press.) Paris, March 3—Andre Paisant under-secretary of state, announced that the French government has to date realized 3,800,000,000 francs from the sale of the vast supplies left behind by the American army and purchased by the French government. The remainder of the stocks are expected to bring 200,000,000 francs, making a total of 4,000,000,000 francs. The government is in the curious position of not knowing until 1929 whether it has made a profit or loss on the huge transaction. It all depends upon the rate of exchange on the dollar on that date. The government bought the stocks from the United States for \$400,000,000 and promised to pay within ten years—in dollars. At the time of purchase the franc was seven to the dollar—or 2,800,000,000 francs. The interest is five per cent semi-annually, but no interest has yet been paid. If the franc goes down to seven to the dollar by 1929 the government will stand to make about 1,200,000,000 francs on the deal.

### HERE'S THE NEWEST! EXTENDING THE ISLAND

New York refuses to be limited by anything—even the shores of its islands. Now that Manhattan is holding about as many people and buildings and transportation lines as it can crowd onto its surface, the perfectly practicable suggestion has been made—and seems likely to go through—to build the island bigger. Wall street will be the geographical heart of the city as well as its figurative pulse when the tremendous undertaking shall have accomplished. The plan is to add six square miles of land to the lower end of Manhattan Island, extending right out into the harbor, including Governor's Island and its acreage and bringing Staten Island as close as Brooklyn now is. Although stupendous in its conception, it has been pronounced a perfectly feasible idea. Walter Russell is president of the organization formed for the purpose of effecting this unprecedented "city extension"; T. Kennard Thomson, engineer; and Ernest D. Anderson, secretary-treasurer. Each of them expresses himself as confident that Manhattan Island will have 3,840 acres more on its surface than nature gave it before many years. "It is not so difficult a job as the building of the Panama Canal," explains Mr. Russell, "and may be considered only second in importance to that achievement."

## THE WEATHER

Forecast for next 24 hours:  
Minnesota—Fair tonight and  
Saturday. Rising temperature.

Cooperative observers record:  
March 2—Maximum 25 above  
minimum 6 below. Reading in  
evening 20 above. Southeast  
wind. Clear.

March 3—Minimum during  
night 6 above.

ades and one example of this is the  
500-mile races conducted by the In-  
dianapolis Motor Speedway. The tenth  
annual international sweepstakes race  
will be run on May 30. It will also  
be the last of the 183 cubic inch class  
contests. Next year the race will be  
for cars with two litre engines, or 122  
cubic inches, smaller than anything now  
produced in the factories in America.

When the first 500-mile race was run  
the maximum engine size was 600-  
cubic inches. The next year the class  
was reduced to a maximum of 450 cu-  
bic inches and three races have been  
run for the 450, 300 and 183 class,  
with this year's event. The Indian-  
apolis Speedway has been the leader  
in the reduction of the engine sizes,  
both from a factor of safety, and also  
the resulting fuel economy, from the  
long stroke, small bore engine. It is  
noticeable that although the engine  
size has been cut down the speed aver-  
ages have not materially suffered.

Reduction of the engine sizes has  
caused a reduction in car weights. The  
weight regulations forecast the entry  
of several foreign cars with the small  
engines in this year's event.

First to make entry for the May 30  
event was Eddie ("Grandpa") Hearne,  
who has a penchant for carrying the  
No. 1 in Indianapolis events. Hearne,  
one of the four drivers now racing  
who completed in the initial five-centu-  
ry in 1911, will drive a Distel-  
Densenberg, one of the team managed  
by Ray Harroun. Hearne and his com-  
petitors in the coming event will race  
for a cash purse of \$50,000 and prob-  
ably fifty to seventy-five thousand in  
added money.

## Lloyd George's Golf

(By United Press.)  
London, March 3.—Lloyd George has  
another worry in addition to those  
that ordinarily become public. He  
was accused of playing golf on Sun-  
day, and he is all worked up about  
it. His secretary, writing at his di-  
rection to a newspaper, claimed that  
a requested denial of a report that he  
had golfed on the previous Sunday  
was not "unambiguous." The newspa-  
per published the letter with the origi-  
nal denial: "A news agency report,  
which we published yesterday, stated  
that Mr. Lloyd George and Lord Rid-  
dell played golf at Beaconsfield on  
Sunday afternoon. We are informed  
by the Prime Minister's Secretary that  
the game took place on Saturday."

## Emergency Call.

"Is this the fire department?"  
yelled the excited professor of chem-  
istry over the telephone. "Yes," an-  
swered a voice. "What do you want?"  
"How far is it to the nearest alarm  
box? My laboratory is on fire and I  
must send the call in at once."—Amer-  
ican Legion Weekly.

**Which  
is  
Larger  
the Sun or a Cent?**

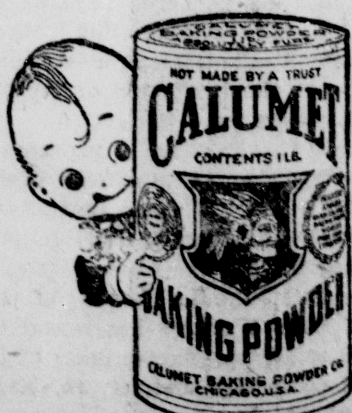

"Why—the sun of course" you  
will say. But remember—you can  
hold the cent so close to your eye  
that you lose sight of the sun.  
Some baking powders can be  
bought for a few pennies less than  
Calumet—but don't hold these  
cents too close to your eyes—you  
will not be able to see the quality  
—the purity—the dependability of

**CALUMET**  
BAKING POWDER

In other words, don't be de-  
ceived by a few pennies—the  
cheapest baking powder in price  
is often the most expensive.

When you buy Calumet you  
know that it will produce pure,  
sweet, and wholesome bakings.  
You know that you use less be-  
cause it contains more than the  
ordinary leavening strength.

Buy it—try it—be convinced.  
A pound can of Calumet contains full 16  
ounces. Some baking powders come in 12  
ounce instead of 16 ounce cans. Be sure  
you get a pound when you want it.

## ELKS ELECTION, NOLAN HEADS HERD

Axel W. Fall Wins in Contest for Secretaryship and Latter Then Made Unanimous

### LARGE ATTENDANCE PRESENT

Every One Assisting to Make Big Show Success Given Rising Vote of Thanks by Lodge

One of the biggest meetings of Brainerd Lodge No. 615 B. P. O. E. was held on Thursday evening. It was election night. In all the list of nominees there was but one contest, that for secretaryship, in which Axel W. Fall, of the house and social committee, was successful and on motion that was also made a unanimous election.

Here are the officers of 615 for the new year commencing April, the installation ceremonies being held on Thursday, April 7:

Exalted Ruler—J. J. Nolan.  
Esteemed Leading Knight—Walter F. Kunitz.

Esteemed Loyal Knight—W. J. Lyons.

Esteemed Lecturing Knight—Charles Stadlbauer.

Secretary—Axel W. Fall.

Treasurer—B. L. Lagerquist.

Tiler—C. D. Johnson.

Trustee—Wm. V. Turcotte.

Delegate to the Grand Lodge, Atlantic City—John A. Hoffbauer.

Alternate—Wm. V. Turcotte.

Delegate to State Convention at Mankato—E. J. Quinn, Wm. J. Lyons and Clyde E. Parker.

Alternates—C. E. Peabody, Fred Allison and C. A. Lagerquist.

Clyde E. Parker of the successful show committee was given a rising vote of thanks.

A motion then carried that every one who had assisted in making the recent show such a success be given a rising vote of thanks.

The house and social committee reported on costs of installation of billiard and pool tables, card tables, soft drink bar and fixtures, etc. and the installation of same was generally discussed.

Applications were voted on and there will be initiatory work Thursday evening, March 16.

The social session was enlivened by

a fine oyster stew, doughnuts and coffee. "Blackie" Clark wrestled Sailor Brown of Staples and the latter got the match, winning first fall with a half Nelson and bar hold in 17 minutes and 50 seconds; the second with a toe hold in 1 minute, 4 seconds. In the first round, if one may so term it, "Blackie" wriggled out of many tight holes, but the half Nelson got him in the end.

James F. Murphy and Col. C. D. Johnson put on a boxing contest in which onlookers got more pokes in the faces than contestants. John Holvick made a stump speech. Charles Imgrund and Walter F. Kunitz boxed several rounds. Visitors were present from Fargo, Little Falls and Grand Forks. Joseph Wolk of Staples and George Ridley of Ironton were in attendance.

## AGAINST MANGANESE ON THE FREE LIST

A telegram from Charles W. Potts and the American Mining Congress to range men is to the effect that "manganese has been put on the free list by the finance committee, of the senate."

Telegrams have been broadcasted on Senators Kellogg and Nelson asking them to go to the finance committee to insist upon its reinstatement. The situation is critical and a big fight must be waged to reinstate the schedule.

Range men have wired the two senators and in Brainerd George D. LaBar, the First National bank and others have wired the senators the necessity of reinstating the schedule.

Banker H. J. Ernster of Deerwood says there will be no ore to haul on the Cuyuna iron range if the range loses out on the tariff.

### Entertains for Sister

Mrs. Robert Peterson entertained Wednesday afternoon for her sister, Mrs. R. O. Ferris, of Duluth. Thirty friends were gathered and a most delicious lunch was served at 5 o'clock. Mrs. Ferris received several gifts in remembrance.

Water, pure and cold is one of the best remedies for indigestion.

Tigers are said to suffer more from seasickness than any other animal.

## "SPANISH SWINDLE" LETTERS RECEIVED

Old, Mildewed Confidence Game of Having Big Fortune and Offering to Share It

### SPANIARD ASKS FOR AID

Public Nowadays Laughs When It Sees One of These Letters and Nobody Bites Any More

One of the old, white haired confidence games which persist in hanging over and continuing is what is known as the "Spanish swindle" game. It seeks to get people interested in contributing money to locate a large fortune. A few weeks ago South Dakota farmers and bankers were sent the "Spanish swindle" letters and now they are being received in Brainerd.

Here is how the "Spanish swindle" letter reads:

Madrid, 9-1-22.

Dear Sir:

Being imprisoned here by bankruptcy I beg your aid to recover a sum of 360,000 dollars I have in America, being necessary to come here to raise the seizure of my baggage paying to the Registrar of the Court the expense of my trial and recover my portmanteau containing a secret packet where I have hidden one check for that sum.

"By reward I offer you the third part viz 120,000 dollars.

"I cannot receive your answer in prison but you must send a cablegram to a person of my confidence who will deliver it to me.

"Awaiting your cable to intrust you all my secret.

Yours truly, R de S.

"First of all answer by cable not by letter as follows: TORIJA, Lista Telegramas, Bilbao, Spain. Price list 75 Deering."

### FOR PIPE ORGAN FUND

Mrs. W. A. M. Johnstone Will Assemble Talent for Violin and Piano Recital at Cong. Church

Another treat is in store for the music lovers who reside in Brainerd and surrounding territory. This statement is guaranteed by the fact that talent is being assembled by Mrs. W. A. M. Johnstone which, under the able

Saturday—Maurice Flynn in "SMILES ARE TRUMP" a thrilling mile-a-minute railroad story, also "HUTCH" and others

direction of the lady mentioned, will give a piano and violin recital at the First Congregational church on Friday evening, March 24th.

In the past Mrs. Johnstone has assembled talent of a rare order and the recitals in past days have been enjoyed by capacity audiences. But not for a number of years has this director prepared a program of this character to be offered in a public building.

Those who have heard the musicians who are to take parts in this recital will look forward to this treat which is in store. And inasmuch as the players are well known to most of us we shall be all the more interested in their efforts as expressed in this recital.

The money raised in this way will be devoted to the purpose of assisting the ladies of the First Congregational church in meeting the amount which they have pledged on the pipe organ which will be installed in this church.

The chief drawback to smoking for women is stated to be the effect it has on the voice and throat.

## FOR SALE

Property of the Nisswa Garage, Bankrupt, located at Nisswa, Minnesota, and appraised at a very low figure in the following sums:

1 50-ft. by 60-ft. Stucco building, used for garage.....\$1,500.00

## "SOVEREIGNTY IN THE PACIFIC"

During the debate in the Senate upon the treaties negotiated at the Armaments Conference and submitted by President Harding, the bunch of "Irreconcilables," who invariably oppose all legislation advocated by the party leaders, of whatever nature it may be, have frequently declared that in these treaties "we have surrendered out sovereignty in the Pacific and in the number of ships we could have."

This is simply bosh, and they know it. It has always been the common understanding that the high seas are open alike to all nations and that no nation exercises sovereignty thereon more than any other nation. Our rights have been and will continue to be equal to and coincident with the rights of every other nation. It is true that we have agreed to limit the number of ships we shall have, but this is really nothing new in our national policies. In 1817 we entered into a treaty with Great Britain by which we agreed not to maintain more than a certain number of ships on the Great Lakes. Did we surrender our sovereignty in the Great Lakes or jeopardize our national existence by agreeing mutually to reduce a needless expenditure for battleships?

Ever since the foundation of our government we have been entering into agreements with other nations by which we bound ourselves to recognize certain rights and privileges of other nations and to limit our own rights and privileges in order that these mutual concessions might promote the welfare of all. If we accept the interpretation of the Senate "Irreconcilables," this was a "surrender of our sovereignty."

## REPUBLICAN WOMEN ACTIVE

The Republican women throughout the country are beginning to get active in anticipation of the coming Senatorial and Congressional contests in the various states. It is stated from National headquarters in Washington that letters are coming in every day requesting literature that will enable the women to carry the message as to the accomplishments of the party during this one year of administrative effort, and also are they anxious for instructions as to organization plans.

The woman's department of the National committee has therefore prepared a number of small pamphlets or leaflets that will prove to be great helps to the clubs, and the National Republican Federation, an organization that is being developed in the states to cement the interest of women in the Republican party. These pamphlets can be secured free upon application to the Woman's Department, Republican National Committee, Munsey Building, Washington, D. C.

## LEAGUE CONVENTION POSTPONED

The Nonpartisan League State Convention has been postponed from March 17 to March 31. The Working People's Nonpartisan Political League has also set its convention for March 31.

The postponement will, it is generally expected, help Mr. Townley's "balance of power" scheme, as the Democratic State Convention also is to meet March 31 in Minneapolis, and the Republican convention in St. Paul the same day. With the state conventions all in session at the same time, the way is open for negotiations. The Nonpartisan people will decide on a course of action for the campaign at their state convention.

## TOURIST INFLEX PREDICTED

A greater influx of tourists into Northern Minnesota this season than ever before is confidentially predicted. The problem is to provide suitable accommodations for this increase of tourists, and the Ten Thousand Lakes of Minnesota Association and other like organizations, will make every effort to see that they are properly

cared for. The summer tourists throughout the country are becoming better informed of the many advantages offered by Minnesota, as shown in the greatly increased number visiting us each year. Last summer, it is estimated that 300,000 tourists spent \$20,000,000 in Minnesota.

## STOCK FRAUD CASES

Many of our Federal courts are said to be clogged to an alarming extent with stock fraud cases. The Federal government cannot act in most cases unless there is evidence that the postal laws are involved, but there are now 480 stock fraud cases before the Federal courts. "These cases," says Attorney General Daugherty, "run from bucket shops and Florida land under sea water to elephant catchers." Whatever the scheme may be, it appears that there are always suckers to be found to bite on it.

The American Institute of Mining and Metallurgical Engineers has issued a statement claiming that the extent of Japan's oil possessions has been concealed. At the present rate of consumption, according to the statement, Japan has three centuries of supply, while the United States has only twenty years of probable oil reserve.

The Hibbing Tribune says that "in their anxiety to create a split in the Republican party, Democrats are boosting Judge Hallam with loud lamentations." "What Judge Hallam needs, however," adds the Tribune, "is a little Republican support—and he doesn't seem to be getting it."

The Washington Post declares that the four-power treaty is pushing through the Senate under its own power.

## REFORESTRATION

(By John H. Nelson, Forest Ranger.)

If the national lumber supply is not well conserved and the development of new sources through reforestation is not immediately started the United States will be facing a lumber shortage within the next 25 years. At present we are using four times as much timber as our forests are reproducing, we have cut and destroyed three-fifths of the forests that originally stood in the United States and today fifty per cent of the nation's timber wealth lies in the three Pacific coast states and from which points we are paying high freight rates on forest products shipped in, that once Minnesota was exporting.

The chief sufferer from the threatened lumber shortage will be the farmer. He uses more lumber than any other class. The average well-kept farm in Minnesota uses about 2,000 board feet of lumber every year for repairs and improvements. Agriculture is the largest wood-using industry of the country. Nearly 50 per cent of all the wood which the country requires is used on its farms, for buildings and improvements, for containers required in marketing crops, for cordwood, fencing material and so on. Probably no other industry would feel so quickly or suffer so severely from a continued shortage of timber. The farmer is the most independent class in the matter of food-stuffs; he might be equally independent in the matter of wood if his timber-growing lands were utilized with the same care and study as the orchard or grain fields. The woodlot has not figured largely in the development of scientific agriculture; often it is regarded as wild land not yet reclaimed. Seldom has it been viewed as a permanent and productive part of the farm, to be taken seriously. The farmers of the country need to check the cords of wood or of timber which their woodlots are growing just as they would check the bushels of grain which their fields are producing, and then improve the yields of their woodlots with the same intelligence and care that they apply to other crops, wherever the character of the land

makes a permanent woodlot desirable. The farmers of the country are at one and the same time the largest consumers of forest products and the largest owners of forest lands. They will find profit in taking their own woodlots out of the slacker class, that is, by some means or other we must see to it that forest lands not needed for agriculture and lands classified as non-agricultural lands are not allowed to lie idle but are kept at work growing timber. Make every acre produce, why pay taxes on land that is not producing. Conserve, grow and protect the timber.

## NEW POSTMASTER GENERAL

Col. Hubert Work is a native of Indiana County, Pennsylvania, and received his early education at the State Normal School there. Later, he attended the Universities of Michigan and Pennsylvania and, in 1885 graduated in medicine from the latter.

His real career began as practicing physician at Pueblo, Colorado, where during a period of twenty-five years he served as president of the Colorado State Medical Society, the Colorado State Board of Medical Examiners, and was ten years a member of the Colorado State Board of Health. Col. Work in 1912 was elected to the presidency of the American Medico-Physiological Society, the association of medical specialists.

Relinquishing his medical practice, he volunteered for world war work in the Medical Corps of the army, and was subsequently commissioned major by General Gorgas, and assigned to the staff of Provost Marshall General Crowder as acting liaison medical officer with supervision of medical details of the selective draft. Advanced to commissions of Lieutenant Colonel and Colonel in the Medical Corps during the war, he now holds the rank of Colonel in the Officers' Reserve Corps.

He is a member of the American Legion. When he became First Assistant Postmaster General last March, he was in line for the presidency of the American Medical Association.

Politically a Republican, Col. Work acted as National Committeeman for six years, was Delegate-at-Large from his state to 1908 convention, and chairman of the State Committee of Colorado in 1910.

Work has been acting Postmaster General for the last few weeks, while Hays has been taking a vacation. He

has been carrying the "load" at the Department since Second Assistant Postmaster General Shaughnessy was killed in the Knickerbocker Theater crush.

## Silver Ages Old

(By United Press.)  
 Buenos Aires (By Mail).—A section hand working on the new railroad line between Salta and Huatiquina the other day cursed as his pick unexpectedly struck something solid and rebounded. But when he had dug around the obstacle it was discovered to be a chunk of pure silver weighing over sixty pounds. It is thought that probably the silver was lost, perhaps hundreds of years ago, from the back of a mule when being transported through the bleak Andes Mountains from far away Peru.

Tea in moderation is a useful stimulant; but if drunk to excess it will cause great depression.

## RESOLUTIONS OF CONDOLENCE

Whereas, God of the Universe, source of all created things, has seen fit to remove from this earth our brother Charles L. Peterson, and

Whereas, said brother has been a most efficient, hard-working loyal brother of the lodge, and

Whereas, Brainerd Lodge No. 1246, Loyal Order of Moose, as a testimonial to said deceased brother and because of his high qualities had elected him for two continuous terms as dictator of the lodge, which office he was conducting at the time of his death,

Now, Therefore, Be It Resolved by Brainerd Lodge No. 1246 Loyal Order of Moose that the deep regret and sorrow of the lodge at the loss of such a loyal brother be expressed, the sympathy of the lodge conveyed to the bereaved family and these resolutions spread upon the minutes of the lodge and published.

C. A. RUSSELL,

# HOME COMING WEEK IN CITY

Fiftieth Anniversary of the Founding of City of Brainerd to be Celebrated

JULY 3 TO 8 OF THIS YEAR

Details are Now Being Worked Out. Modern Woodmen to Have Big Open Air Initiation

The meeting of the representatives of the various organizations throughout the city, called for the purpose of discussing the advisability and feasibility of holding a celebration commemorating the fiftieth anniversary of the founding of the city of Brainerd, decided upon forming a permanent organization.

The original committee made several recommendations, some of which were adopted and changes made in others. The recommendation that the week beginning July 3rd be selected for the celebration was concurred in.

Edward J. Egan was selected to permanent chairman, O. J. Bouma selected to be permanent secretary, R. J. Tinkelpaugh, treasurer and F. E. Little, vice chairman. The officers, together with Dr. Grace Williams, P. T. Brown and S. R. Adair were chosen as members of the executive board.

The Modern Woodmen of America had a representative of state organization present and the committee made a proposition asking the meeting to designate one day as Modern Woodmen Day, giving them the opportunity to invite the members of their organization throughout this part of the state to attend on this day, furnishing speakers, entertainment, etc. The matter was left in the hands of the executive committee to decide and after the adjournment of the regular meeting, the executive committee met and decided to accept the proposition of the M. W. of A.

It was decided to hold the main part of the celebration at Lum Park. The meeting adjourned to Thursday, March 9th at 7:30 p. m. in the Chamber of Commerce, at which time the executive committee will announce the names of the chairmen of the various committees.

Those present were as follows: P. Peterson, M. W. of A.; C. Bruha, M. W. of A. of R. E.; R. J. Tinkelpaugh, Brainerd Business Men's Association; Clyde E. Parker, Milton Mahlum and Bert Orne of the American Legion; A. W. Force, Lions club; W. E. Corkey, Knights of Columbus; Jos. P. Nelson, Knights of Columbus; L. J. Mraz, Knights of Columbus; Frank H. Cater and Andre Peterson of I. O. O. F.; Dr. Grace Williams, Pearl Falconer and Harriet Engsborg of the Business and Professional Women's club; W. A. M. Johnston, M. W. of A.; Wm. J. Lyons, Henry Krause and S. R. Adair of the Eagles; Theodore Brusegaard and Carl J. Wright of the Chamber of Commerce; W. R. Nelson and Stella Russell of the Florence Rebekah Lodge 111; L. M. Clark of the World War Veterans; A. A. Englund, post office department; A. A. Arnold Business Men's Association; P. E. Little, City of Brainerd; P. T. Brown and M. J. Keane, Trades and Labor Assembly.

Wm. G. McGarry, Railway Clerks; A. G. Anderson, County Board; R. K. Gumaer, Park Board.

## ALL COUNTY LAND CLEARING MEETING

To be Held in Brainerd March 16 With Representatives from Whole County Invited

### IMPOSING ARRAY OF SPEAKERS

After Organization 20 Meetings are to be Held in Various Parts of Crow Wing County

A big all county land clearing meeting will be held at Brainerd, March 16th. Representatives from the whole county are invited. The Brainerd Chamber of Commerce will serve a free dinner. Speakers will be M. Thompson of Northeast Experiment Station, Duluth; A. J. Schwantes, land clearing specialist of University of Minnesota; H. W. Byerly, Immigration Agent of Northern Pacific Railway of St. Paul; S. B. Cleveland, Assistant County Agent Leader of Northeast Minnesota, representatives from banks, newspapers and commercial clubs of the county.

A land clearing organization is planned. This meeting will be followed by a series of twenty meetings held at various parts of the county including Farm Bureau Units and towns of the county. The meetings will be under the direction of the Crow Wing County Farm Bureau. Speakers will be A. J. Schwantes, representatives from dynamite companies, County Agent E. G. Roth, District Forester John H. Nelson.

Best methods of clearing land, land brushing cost of clearing, modern methods of clearing, value of co-operation land clearing, best crops for new land and any question pertaining will be taken up at these meetings. Value of explosives, dynamite, picric acid, financing, will be discussed fully.

## KARHUNSAARI UNABLE TO COME

In a wire received by P. J. Smracker, Henry Karhunsari, billed to wrestle L. C. Curtiss at the Gardner auditorium tonight, stated he would be unable to come. No reason was assigned.

Rather than disappoint the fans, Mr. Smracker and W. N. Taylor, manager of Curtiss, have cast about for a local wrestler and expect to put on F. F. Gilmore.

Bethlehem Lutheran Men's Club The Men's club of the Bethlehem Lutheran church of South 7th street will meet this evening, Friday, in the church parlors. Mr. and Mrs. L. Zakariassen and Mr. and Mrs. Andrew Holm will entertain. Everybody is welcome.

## LITTLE FALLS PAVING LET SOON

Bids to be Received This Month for 15 Mile Extension of Cement Highway to Belle Prairie

### READY FOR QUICK START

Crushed Rock Being Hauled for the Stretch Between St. Cloud and Royalton—Detour Problems (St. Cloud Daily Times)

Contract for the stretch of pavement between Royalton and Belle Prairie through Little Falls will be let within two or three weeks, according to a report received by R. D. Jorgens, state highway engineer, located in this city.

The contract calls for concrete paving re-enforced with crushed granite for the 10 miles this side of Little Falls, but gravel re-enforcement will be permitted on the 5 miles north of that city.

Work on the construction of the pavement between St. Cloud and Royalton is being carried on at present with several teams at work hauling crushed rock and gravel. With the first thaw crews are expected to arrive to commence operations.

Highway Engineer Jorgens reports that investigations have revealed that it will be a great task to maintain suitable etours during construction. The stretch between St. Cloud and Little Falls has always been a sandy road and it was not until heavy graveling that a good highway was perfected.

The detours will undoubtedly take the west river road to the bridge at Royalton. This road is in good condition as far north as the bridge at Rice but from that point on to the state highway north of Royalton it becomes little more than a trail in many places and never a good road for heavy traffic.

The highway department is anticipating great difficulty in keeping this highway in passable condition without necessitating huge expense.

### COW LOSES TONGUE

Horse in Next Door Manger Objects to Her Stealing Hay from His Feed Box

A peculiar incident happened in the barn of George Ledoux of Mill street, Northeast Brainerd. He has a cow and pair of horses in nearby stalls. The cow ran out of hay and stuck her long tongue through a crack and started appropriating hay from the horses' manger.

The high horse resented this encroachment, reached over and bit off a section of the cow's tongue. Dr. C. A. Nelson was called and saved the balance of the cow's tongue. Mr. Ledoux fixed up the stalls, so there is no more danger of the cow and horse quarreling.

At Odds.

It is difficult to get self confidence and an empty purse to travel together. —Boston Transcript.

# Could Not Cancel Orders and We Must Sell the Oxfords

We placed our order for Spring oxfords before we had decided to close out our shoe department. When we made that decision we asked the manufacturers to cancel the order. He replied that the shoes were being made to our order and that he could not accept a cancellation. He shipped them and we now have them.

These new very high grade Spring oxfords will be included with all the shoes we are closing out at reduced prices. If you come now you can buy the choicest of Spring oxford styles at sale prices. A remarkable opportunity. But don't wait--when a size is sold out it will not not be replaced--Come at once.

New Black Kid Oxfords—The new circular toe—welt sole—combination lace—five eyelet lace—an oxford for real comfort .....\$6.59

New Brown Kid Oxfords—Same style as above item. A remarkably satisfactory shoe—Our sale price .....\$7.95

## 'MIXED' JURY TELLS HARDSHIPS OF 48 DEADLOCKED HOURS

SEVEN WOMEN, FIVE MEN PASS 2  
NIGHTS IN ST. PAUL JAIL BED-  
ROOM THAT LACKS SCREEN

ARISE BEFORE DAWN SO THEY  
CAN DRESS—WILLING TO AGREE  
TO ANYTHING

St. Paul, March 3.—In St. Paul, seven women and five men, whose erstwhile conventional lives ran along as smoothly as lives will run, today are recounting an experience the details of which can be equalled only by the most hardy of desert islanders washed up by the "movies."

They composed the mixed jury in the George Thoenke automobile theft case whose decision was "hung" for 48 hours before they agreed to convict. By day they battled six against six in the juryroom adjoining the courtroom. By night they were herded into chain gang formation and under guard of two deputies were marched over to the county jail, there to be locked together in the juryroom until the bailiff chose to take them to breakfast.

Today the comments flowed thick and fast. The only poor scout in the bunch was a man," said George Washington Hart, bailiff, who held the keys of confinement.

### Not Even a Curtain

"Really there should have been a curtain in that jail juryroom," said Miss Anna Smith, the only unmarried woman in the bunch.

"There'll never be another mixed jury in Ramsey county," was the opinion of court attaches who for two days and nights had waited the jury's decision.

But blame it on the stubbornness of men or the wilfulness of women, no one could. During the entire period of the deadlock the jury had stood one man and five women against four men and two women.

"We fought and we argued," said Miss Smith. "We took sides. Then we all got together and laughed about it. I have always heard that men were the only ones who could do that. But the women were just as good natured about it as the men."

And so far as Mr. Hart was concerned he had nothing but good words for the women. Mr. Hart was nicknamed "Little Sunshine" by this jury.

**Man Juror Wanted Privacy**  
"During the entire 48 hours," said Mr. Hart, "I never heard one complaint from these women. And then one of the men had to come to me with the first kick. He said there wasn't any privacy."

"Privacy," said I to him," recounted Mr. Hart. "privacy?" You come to me talking about privacy, when during this whole time I haven't heard one word of complaint from those women."

And as for the husbands of the women, they were said to be having a few things to say themselves today.

### Husband's Weary Vigil

For instance, there was the husband whose three year old daughter was evidently missing her mother. For two nights he came down to the county jail, took up a vantage point on the outside of the jail door and in a manner which could be nothing but peaceful (because he would be put out if he wasn't) waited for "mother" to get off the jury. When the word was brought out to him the jury was retiring for the night, he betook himself home to care for his motherless daughter.

There was the husband who threatened the judge, who asserted his rights as a Ramsey county taxpayer, and who was "going" to do many things. He probably went home, put the baby to bed and washed the dishes. For on the jury this mother remained until the decision was reached.

Then there was the husband who didn't do the "right thing" at all by his wife. He is probably hearing about his deficiency this minute. This husband had tickets for a dance. He called up his wife to know if she would be off the jury in time to go with him. "I told him I wouldn't," said the wife. "And what do you suppose he did. He went anyway."

"I suppose you just decided to make the best of it," someone commented to Miss Smith.

"We decided nothing," said Miss Smith. "There was nothing left for us to decide. Once we were on that jury we never had a chance. You don't say much when a bailiff marches you over to the jail and with a key that looks as big as the key to the city locks you in for the night."

When the indignation meeting had subsided, they were willing to divulge a few of the details. "Only don't put our names in the paper," they begged.

**And Then Bedtime Came.**

"You see when they put us in that

room in the jail at night," explained a young married woman, "we just sat around on the edge of our beds and talked about that case until we were nearly dead. Then someone mentioned going to bed."

"It really was rather funny. The men took the hint and withdrew over to a corner. They sat there with their chairs facing the wall. We took the sheets off the beds and hung them over the foot. Then we got in bed, shut our eyes and pretended we were asleep."

**One Woman Talked All Night**  
"But we didn't sleep much the first night. One of the women talked all night. I don't think the men missed any sleep, though. At least you would not think so from the snoring that was going on."

"Then in the morning we woke up first before the men. We all got up while it was still dark and by daylight were all dressed."

The first morning there was a great clamor among the women for face powder. The few grains of powder on each puff had about served their purpose. An alarming paleness was noted here and there. Some said they never before had appreciated their toothbrushes.

Toilet articles were sent for and obliging husbands and wives brought their justice dispensing mates the required articles.

The first night, it was said, the men didn't smoke. By the next night however, they didn't even ask permission.

"The first day there was ginger and vinegar in the bunch," said Mr. Hart. "But the second morning found them with nothing left. They would have agreed to anything that second morning."

### MINNESOTA HORSE AND BUGGY CLUB

It's hay-ho and gid-dap for New Orleans American Legion national convention for hundreds of Minnesotans next October. According to Harry Klaus, State Driver of the Minnesota Horse and Buggy Club, most Gophers will go down via the Horse and Buggy route. Last year Minnesota had more than 1,200 Gophers at Kansas City. En route, they had a jolly good time. And at Kansas City they not only had a good time but were one of the biggest hits in the convention and brought Minnesota much valuable advertising. Every buddy had a Gopher badge on his shoulder and all sang a humorous song entitled "The Horse and Buggy" which took like wild-fire among the delegates.

So on the way home the Gopher gang organized a "Horse and Buggy Club," the object being to get the same bunch and many other Gophers too, to make the trip to New Orleans in 1932. Each member agreed to deposit \$15 each month with Ray Tennant, Minnesota Legion Treasurer, Merchants Bank, St. Paul, the first \$15 to be deposited on or before March 10, 1932. This will provide each member with \$105 for transportation and incidental expenses. Of this amount, any portion not required will be refunded, or all of it, if the member finds it impossible to make the trip.

Each Minnesota congressional district Legion commander automatically becomes an assistant state driver and in addition to forming a district Horse and Buggy club, will encourage the formation of a local Buggy for each Legion post in his district—but all funds will be cleared through the Legion Department Treasurer, Ray Tennant, known as Fifth Wheel. One suggestion is that each local Buggy ask its civic and commerce association for an appropriation to cover cost of advertising specialties to be distributed en route and at New Orleans to help make known the many industrial, educational, scenic, and other advantages of the North State.

The big object is to foster comradeship like that which developed on the Kansas City trip. Any bunch of Legionnaires capable of promoting the good fellowship of that outing ought to have the ability to get together the same gang and a lot of other jolly Gophers for the big trip south in October, 1932.

So much did Legion National Officers think of the idea when they heard of it that they asked State Driver Harry Klaus for detailed plans with the object of urging every state to take up the idea. To establish definite plans for the Minnesota organization, a meeting was held on February 4th at which various tasks were assigned buddies throughout the state. Here are some of the officers:

Off Horse—E. J. D. Larson, Minneapolis.

Nigh Horse—Spencer Searles, Duluth.

Whip (Sec.)—Ray Foote, St. Paul.

1st Wheel—Edward Nicholson, Minneapolis.

2nd Wheel—G. P. Gentling, Rochester.

3rd Wheel—Ludwig Roe, Montevideo.

4th Wheel—A. B. Kapplin, Duluth.

Dashboard—Ray Rossberg, Crookston.

Belly Band—Art. Smith Center City.

Canopy—Father David Moran, Farmington.

Rear Axle—Mayor W. J. Maertz, New Prague.

Front Seat—Fred McCarthy, St. Paul.

Axle Grease—Dr. Wm. Daily, Bloomington Prairie.

Neckyoke—M. P. LaFleur, Two Harbors.

Socket—John McDonald, St. Paul.

Halter—Dr. L. R. S. Ferguson, St. Paul.

Oil Can—John McMahon, St. Paul.

Right Tug—Mayor Leach, Minneapolis.

Left Tug—Lt. Gov. Collins, Minneapolis.

Right Rein—Staff King, St. Paul.

Left Rein—Dr. Van Dyke, St. Paul.

Check Rein—A. C. Jensen, Minneapolis Police Chief.

Bridle—Ray Scallen, Minneapolis.

Footman—Leo Kelly, Minneapolis.

Other Gophers who will have busy Buggy jobs are: Izzy Sher, Hibbing; B. D. Grogan, Mankato; Jack Lamberton, Winona; Archie Vernon, Little Falls; Milton Mallum, Brainerd; Warren Pughes, Duluth Police Chief; Mayor W. C. Empey, Virginia; Russel Mathers, Duluth; John Bowe, Canby; Dr. J. A. Hielscher, Mankato; Dr. J. A. Gates, Kenyon; Jack Townley, Ferguson Falls; W. T. Mollison, Faribault; Z. L. Begin, Minneapolis.

## AMUSEMENTS

### At New Park Theatre Tonight

Accidents such as wrecked the huge ZR-2 causing death to the majority of her crew called attention to the fatal weakness which exists in all heavier than air craft. The broad expanse of surface which offers resistance to air currents seems to present an obstacle which the best engineers have not yet conquered because a frame strong enough to withstand all pressure is too heavy to be included in an airship.

Nearly everyone who has ever ridden in a "blimp" has encountered this danger and in one case this very weakness of such crafts carried an entire motion picture company from Florida to Cuba. The company was the one which appears in "Molly-O," the Mack Sennett production starring Mabel Normand, the Associated First National Pictures attraction which will be shown at New Park last night.

The climax of the picture is a scene in which the kidnapped heroine is being taken away in a "blimp" and the hero gives chase in an aeroplane. The scenes were taken in Penacola, Florida, and while the "blimp" was in the air for the long shots a heavy offshore breeze sprung up, blowing so stiff that the commander of the dirigible did not want to take the chance of turning and permitting the breeze to strike broadside on the big bag.

The engines were kept going, holding the ship almost stationary against the breeze, and then the fuel ran low. Before it was completely exhausted the commander stopped the engines and the big bag was carried by the breeze almost in a direct line for Cuba. When the wind died down to a point where the commander thought it safe to fight it, Cuba was much closer than the Florida coast, and because of the fuel shortage the landing was made there.

The tanks were replenished and the commander was ready to start back, but Mabel Normand, Jacqueline Logan, Ben Deely and others of the Sennett company had had enough and they came back by steamer.
